Typically costing sheets are used to add overhead costs that cannot be specified on a BOM, routing or master recipe, or with purchasing or sales conditions. You might choose costing sheets to add royalty costs or building overhead costs like electricity. We have more information regarding Costing Sheets.

### **SAP Controlling: Costing sheet**

SAP Costing Sheets. The costing sheet assigned to a cost object determines the way in which Allocations, Employee Benefits (EB), Facilities and Administration costs (F&A), Research Vacation Accruals, and Fund Fee will be calculated and applied. Different costing sheets use different "bases" to make the necessary calculations and are detailed in the table below.
