Math Games From Math Their Way Grades K-1 Summary: Who doesn't like a good game? Check out these games from the math program "Math Their Way". I use some games that I got from the Math Their Way program. I am not sure what they are called in the book since I have been using them for years and we, the kids and I, have probably mixed up the names.

### **Math Games - The Teacher's Corner**

Mathematics Their Way is a textbook written by Mary Baratta-Lorton and published by the Center for Innovation in Education, and later by Addison-Wesley (1995). The text grew out of her desire to mathematically reach all of the children in her inner city classroom, especially those who had not had much experience with math or who did not possess a natural penchant for math.

### **Mathematics Their Way - The Curriculum Choice**

Mathematics Their Way is available from its publisher Pearson Education, from Amazon.com, from the Center's own on-line Store, as well as from a variety of other suppliers -- the names of which are easily discoverable through Google or similar search engines.

### **Mathematics Their Way - Center**

The Center for Innovation in Education is a nonprofit educational organization founded in 1975. The Center creates innovative teaching materials in the areas of reading and mathematics for elementary grade children. The Center has trained well over 500,000 teachers world-wide in elementary mathematics. The Center's Baratta-Lorton Reading Program, also known as Dekodiphukan, has been in use in ...
